

## A room to remember

### Geoscience Australia

A 3D visualisation workroom/decision centre which enables GA's project staff to interactively visualize, explore, discuss, and edit complex multi-dimensional geoscientific and geospatial data and models in a collaborative environment.

### University of Adelaide SAVRC

A state-of-the-art multi-functional workspace featuring an innovative motorised screen setup, whereby the third screen can be moved from a 0° to 90° angle at the touch of a button.

### Rio Tinto EPIcentre

The EPIcentre (Evaluation Planning Innovation) project features two rooms; a Virtual Reality and Interactive Communications enabled Collaboration Room, and a Technology Lab designed for video conferencing sessions.

*(Shown is the Collaboration Room)*

- Consulting • Concept • Project Management
- Manufacturing • Installation • Maintenance
